

Litigator Scrub®

Are litigators hiding
in your data right now?

Protect your business
from TCPA lawsuits

Litigator Scrub® is the industry's trusted cloud-based defense against serial plaintiffs and "lawsuit mill" litigators who target companies for Telephone Consumer Protection Act (TCPA) violations. Our Litigator Scrub® solution identifies serial TCPA plaintiffs & litigators in your data while running wireless, VoIP and Do Not Call (DNC) scrubs simultaneously. Litigator Scrub® works for both inbound and outbound campaigns and is updated in real time from the most up-to-date Court documents.

ANY company that uses an autodialing system or automated text platform is at risk. All it takes is a single call or text to support a TCPA case. This has spawned a multi-million dollar litigation industry with record-breaking judgements.

THERE ARE TWO KEY GROUPS
which Litigator Scrub® identifies and removes

PROFESSIONAL PLAINTIFFS

Create TCPA violation scenarios so that they can file targeted TCPA lawsuits for profit.

CLASS ACTION ATTORNEYS

Highly targeted activities extort huge settlements and crippling judgements.

In response to this very real threat, Contact Center Compliance created the first, and leading solution to remove these Professional Plaintiffs and Class Action Attorneys from call and text lists.

Litigator Scrub® is the award-winning industry leading SOLUTION.
There is no substitute. **Market with Confidence.**

Litigator Scrub®

The industry's most reliable and cost-effective defense against serial TCPA litigators and professional plaintiffs.

EXPERIENCE MATTERS. WE HAVE PERFORMED OVER 70 BILLION SCRUBS

Contact Center Compliance is the industry leader in TCPA and DNC compliance software. We were also the first to identify and scrub for TCPA litigants. With over 20 years of call center compliance business under our belts, we have performed over 70 billion phone number scrubs.

BUILT FROM THE GROUND-UP FROM REAL CASE FILES

Litigator Scrub® was built by real industry experts. Our comprehensive database of serial litigants was researched, identified, and created case-by-case. With Litigator Scrub®, every phone number is matched against a real case file, so you can minimize your risk while maximizing the phone numbers you can keep in your data.

PRECISE BY DESIGN

For every case file loaded into our database, we verify the accuracy of the contact information on each litigant by using a trusted solution designed to assist law enforcement in locating people. This precise approach ensures accuracy.

ROBUST API INTEGRATION

Your dialer + our API = the perfect TCPA compliance solution. Identify litigators in real-time on both inbound and outbound campaigns. We integrate with some of the most popular dialing platforms including Genesys, Five9, VICIDial, ActiveProspect, Mitel, and MyCallCloud. Contact us for a complete list of integrations. When you connect to our API you get a reliable cloud-based platform with guaranteed 99.9% uptime and redundant backups in multiple locations across the globe.

If you want the best litigator service on the market today - **Get Litigator Scrub®**
